PROJECTS

Shopping cart

📅 05/2023 - 06/2023 📍 Location

Project Work Summary: Shopping Cart

Objective: To develop a dynamic and user-friendly shopping cart application using HTML, CSS, and JavaScript, providing a seamless shopping experience. Key Features: Product Listing: Display a list of products with images, names, descriptions, prices, and "Add to Cart" buttons. Cart Functionality: Add items to the cart. Remove items from the cart. Update the quantity of items in the cart. Price Calculation: Automatically update the total price based on the items in the cart. Responsive Design: Ensure the shopping cart is usable on various devices (desktop, tablet, mobile). User Feedback: Provide real-time feedback to users (e.g., item added to cart notifications).

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
